Practical Related Questions:

1. If you compress the images in the presentation ,then what will be the effect on the file?

Ans:- By compressing the image in the presentation you are actually reducing the size of the image , that mean the quality of thee image will down and you will not see the image that much clear that it was before compressing .

Also, because the size is reduced so, the space occupied by the presentation will also reduced .

2. How will you enter a text on blank theme slide?

Ans:-1. On the **Insert** tab, click **Text** Box.
2. Position your cursor at the location **you**'d like to **insert** the **text** box.
3. Click, hold, and drag the mouse to create the **text** box.
4. Release the mouse and start typing.

3. How to start the slide show from any particular slide?

Ans:- Open the **slide** from which you want to **start the slide show**. Go to the standard tool bar . Click **slide show**, a dialogue box would appear . Click on " the current **slide**"
